Quick Notes:

- There is an option for a Mobile Pass. In our experience, Liberty is not always on the bleeding edge of technology adoption. You may want to opt for the physical pass. If you don't, and for some reason Mobile Pass doesn't work, your student can always get a new physical pass printed at Liberty (this was free last year).
- You will also have the option to link a credit card to the Epic Pass. This is called Resort Charge. Again, this was hit or miss last year. If you chose this option, I would have a back-up plan. Liberty is also a cashless resort.

NEW! Use Mobile Pass on My Epic app (Required Step) ⓘ

You can now scan your Epic Pass on your phone. Plus, save \$4.95 in shipping fees.

Yes, I will use Mobile Pass on the My Epic App. I do not need a Physical Pass Card.

No, I would prefer to receive a Physical Pass Card and pay \$4.95 shipping fees.

*A Physical Pass Card is required at Telluride and Resorts of the Canadian Rockies (access varies by Pass type)

Sign Up For Resort Charge (Optional) ⓘ ^

Attach a credit card to your pass/card and leave your wallet behind. Shop, eat, and ski all on one card.

Note: The credit card used in this purchase will be saved to your account. If you choose to pay with Epic Flexpay, you will need to add a credit card to your account after your purchase. [View Agreement](#)

Yes, enroll this pass/card in Resort Charge.

4. Check Out!!

- After completing your purchase. You will receive an email confirmation. If you received a physical pass this year, you will not receive a new one. Your current pass will be updated. Once again, if you don't have it, we can get a new one printed at the mountain.
